

Gothic 2027

Sign Up Questions

Ahead of the sign-up for Gothic opening on Halloween, Here are the questions that appear on the sign-up form for the larp. There is no rush to complete these as the form will be available until 20:00 CET on November 30th, but we appreciate that some folks like to see all of the questions up front. You can find out more about the sign-up and casting process on our website.

We will ask for your email address and your real name which we use to make sure folks are cast with the right people and we will ask you to confirm you are over 18 years old, that you are happy for us to hold and process your information and that you have read and understood the web page "Is This Larp For Me" and I am comfortable with and understand the themes of this larp. You will need to tick all of the boxes to proceed.

Character Selection

In this section we will ask you to select the character or characters you wish to play, and to put them into priority order. The available characters are Mary Godwin (Mary Shelley), Lord Byron, Percy Shelley, Claire Clairmont, and Dr Polidory. Unless you are playing a poets only run each of these characters is paired with their servant who you will play on the second day. If you have no preference, or if you have no interest in playing a specific character there is an option for that as well.

Casting Questions

We will ask you the following questions with a free entry text box

Why do you want to play this larp?

This question will help us to match you with players who have similar motivations for wanting to take part in Gothic. Even if you are signing up in a group this question is useful as we try to match poets from one run with servants from another.

Intensity and Calibration (optional question)

Gothic is a larp that contains elements of physicality and erotic horror. A learning from the previous runs was that it was wise to try to match players who are interested in similar levels of intimacy and intensity. What style / intensity of play on these themes are you comfortable with?

If you are an experienced player in this style of larp, do you prefer strict metatechniques, slow escalation, pre-calibration, or a combination of all three?

We acknowledge that your response to these questions may depend on your mood on the day of the larp, and how well you know your co-players, we are looking for an indicative response.

Sign-up

We will ask you which runs you are signing up for. We will show you the start and end date of each run, along with the ticket price.

We will ask whether you are signing up alone, or in a group of 5?

If you sign up in a group we will ask for the names of those people you are signing up with. Please ensure that all members of your group have completed the sign-up process on time.

We will ask if for whatever reason the group application is unsuccessful, would you like us to consider you for a single place on the larp if one is available?

Casting Preferences

We will ask about your preferences for players that do **not** wish to be cast with.

In the event that we cannot immediately offer you a place at Gothic 2027, will ask do you want to enter the Wait List for the event? If so, for how long do you want to remain on the wait list? 3 months or 1 month before the larp?

We will ask whether you want to opt to be on the reserve list. Being on the reserve list means you may be invited to attend at the very last minute at no fee.

Personal Questions

We will ask some personal questions. These will not affect your casting and will only be referred to if you are offered and accept a place on the larp. These questions are about dietary requirements, allergies, and any medical accessibility information, along with an emergency contact.

Dietary requirements

Do you have any dietary requirements, allergies, intolerances or preferences that we need to be aware of. We will reconfirm this information closer to the larp but it will aid our budget and food designer to have this information up front.

Medical/Accessibility disclosure

Is there anything that the organisers need to be aware of either from a health point of view or in terms of specific accessibility needs? You can see our accessibility statement for this larp [here](#).

Emergency Contact

We will ask for the name and contact details for one person who we can contact in case of an emergency.
